RECYCLED

ALL STATE LEGAL SUPPLY CO. 1-800-222-0910 ED11

La Star Exhibit 10

SCHEDULE OF PROPOSED CHARGES

SCHEDULE OF PROPOSED CHARGES

La Star intends to offer a rate schedule for its cellular system which allocates costs to subscribers according to the services used. By requiring each subscriber to pay his or her allocable share of incurred costs, La Star will make cellular service available to the greatest number of potential subscribers. To make this service widely available, La Star will not restrict the resale or shared use of its cellular service.

La Star's proposed rate structure has been designed with three goals in mind: (1) to provide La Star with revenue sufficient to meet the costs of operations; (2) to encourage efficient use of the cellular system by its subscribers; and (3) to recover costs during operation at full system capacity plus a return on costs incurred during system start-up. These goals are served by a cost-based schedule of charges that will encourage full utilization of the wide range of the cellular system's capabilities. La Star is committed to passing through all cost savings it receives, whether from economies of scale or otherwise, to its customers in the form of lower rates.

La Star proposes a three-part, usage sensitive rate schedule, consisting of a low access charge plus a charge per minute of airtime. In addition, La Star's rates pass through toll charges, and include off-peak, volume, and governmental

discounts. The various features of the La Star rate schedule, as well as an explanation for the level of the proposed charges, are described more fully below.

Proposed Rates

| <u>Number of Units Subscribed to:</u> | <u>Monthly Access Charge/Unit</u> |
|---|---------------------------------------|
| 1 to 10 | \$33.00 |
| 10 to 20 | \$25.00 |
| 20 to more | \$20.00 |

Usage Charge per minute

| | |
|---|---------|
| 6:00 a.m. 7:59 p.m., Monday-Friday | \$ 0.30 |
| 8:00 p.m. 5:59 a.m., Monday-Friday; Saturday, Sunday and holidays (all day) | \$ 0.15 |

One-time Charges

| | |
|-------------------------|---------|
| Service Ordering Charge | \$25.00 |
|-------------------------|---------|

Temporary Service (Roamers): La Star will provide cellular service to non-permanent subscribers, or roamers, who desire temporary access to its system. To be eligible for temporary service, a roamer must be a permanent subscriber of another cellular system.

La Star will not discriminate against roamers in its rate structure, although it may assess fixed fees to recover its costs of collection from roamers. Where La Star has entered into reciprocal roamer agreements with other cellular systems which

reduce its costs of providing roamer service, La Star will pass those cost savings along to the roaming subscribers of the other systems.

Optional Subscriber Service: La Star will determine its rates for optional subscriber services and features based on the aggregate capital cost of basic and special facilities employed, plus the direct costs incurred in providing each optional service.

Rate Conditions: The following conditions will apply to La Star's proposed rate schedule:

1. La Star will apply usage charges to the airtime of all completed outgoing calls made by the subscriber and all incoming calls received by the subscriber. Subscribers will be charged at the per minute rate separately applicable to each minute of the call.
2. La Star will charge completed calls in tenth-minute increments, counting a portion of a tenth-minute as an entire tenth-minute period.
3. Toll charges for all calls will be added to the usage charges for cellular service, whenever incurred by La Star. In this context, toll charges include local message-unit charges (if any) in addition to long-distance charges.

DECLARATION

I, John A. Brady, Jr., Chairman, hereby declare under penalty of perjury that the foregoing exhibit entitled "Schedule of Proposed Charges" is true and accurate to the best of my knowledge and belief.

I have reviewed the Schedule of Proposed Charges and find them to be consistent with La Star's proposed cellular system.

Executed this 12th day of September, 1990.

John A. Brady, Jr., Chairman
La Star Management Committee

DECLARATION

I, Mark Krohse, hereby declare under penalty of perjury that the foregoing exhibit entitled "Schedule of Proposed Charges" is true and accurate to the best of my knowledge and belief.

I am Accounting Manager for United States Cellular Corporation. At the request of La Star Cellular Telephone Company, I prepared a schedule of proposed charges for cellular service in St. Tammany Parish.

Executed this 12 day of September, 1990.

Dear Don:

Thank you for sending me copies of the recent filing which Arthur Belendiuk made with the FCC for La Star in the New Orleans case. However, it is not necessary for anyone to send me copies of this particular set of materials, since Belendiuk reviews all of his filings with me in advance and then provides me with a copy of the documents as filed. In fact, I suspect you received his November 4th letter to the FCC from us, although you may also have received a copy from him direct.

Best regards.

Sincerely,

Alan Y. Naftalin

Re: Estimates of 39 dBu coverage by N.O.CGSA and LaStar of St. Tammany Parish

Telecopier Phone Number: 785-2804 and 467-5915 or 4981

Comments: Dear Art and Alan: As discussed, we have reviewed the 39 dBu coverage (predicted by Carey - FCC methods) of the various N.O.CGSA and La Star amendments. Our results are tabulated below: Per 1980 U.S. Census,
 Population - St. Tammany Parish 110,869 - Land Area - 873 mi²

39 dBu area and Population Within New Orleans SMSA

La Star: as of 1987 and 1988 amendments:

entire 39 dBu area - 1,034 mi² Land area only - 842 mi² (96.4%)

Population - 110,285 (99.5%)

N.O.CGSA - 1983 initial expansion

entire 39 dBu area - 547 mi² Land area only - 372 mi² (42.6%)

Population - 96,896 (87.4%)

N.O.CGSA - March 1985 amendment

entire 39 dBu area - 721 mi² Land area only - 533 mi² (61.1%)

Population - 99,248 (89.5%)

N.O.CGSA - October 1987 amendment (Including August, 1987 filing)

entire 39 dBu area - 1,005 mi² Land area only - 804 mi² (92%)

Population - 106,862 (96.4%)

Dear Art:

We are enclosing herewith a "prepublication" copy of the engineering portions of an amendment to the La Star Cellular application for St. Tammany Parish in the New Orleans, LA MSA. There are some points which are not yet ironed out in the engineering text (e.g. increased frequency specifications to accomodate the newly received market study for the amendment (L-8) which increases the projected number of subscribers). Per your instructions we are also sending copies, by this letter, to Mr. Dick Goehring of U.S. Cellular, Alan Naftalin, Esq. of Koteen & Naftalin, and Mr. Barclay Jones of Moffet, Larson & Johnson.

We will contact you as soon as we have a more complete Engineering Statement for your review. Should you have any comments in the interim, please contact us.

Sincerely yours,

Richard L. Biby, P.E.

Dear Mr. Belendluk:

Enclosed is a copy of the pages that have been revised for the La Star Cellular Telephone Company's budget.

The budget has been updated based on available information relating to the construction of the cellular system and the projection of the first year operating statement. It is our recommendation that La Star update the affected pages. Meanwhile, we will be working with Allan Naftalin regarding a new commitment letter from the bank.

If you have any questions, please call me at (312) 896-3500.

Sincerely,

Mark Krohse

start-up. These goals are served up by a cost-based tariff that will encourage full utilization of the wide range of the cellular system's capabilities. La Star is committed to pass through all cost savings it receives, whether from economies of scale or otherwise to its customers in the form of lower rates.

La Star proposes a three-part, usage sensitive rate schedule, consisting of a low access charge plus a charge per minute of airtime. In addition, La Star's rates pass through toll charges, and include off-peak, volume, and governmental discounts. The various features of the La Star rate schedule, as well as an explanation for the level of the proposed charges, are described more fully below.

Proposed Rates

| <u>Number of Units Subscribed to:</u> | <u>Monthly Access Charge/Unit</u> |
|---|---------------------------------------|
| 1 to 10 | \$33.00 |
| 11 - 20 | \$25.00 |
| 21 or more | \$20.00 |
| <u>Usage Charge per minute</u> | |
| 6:00 a.m. 7:59 p.m., Monday - Friday | \$0.30 |
| 8:00 p.m. 5:59 a.m., Monday - Friday; Saturday (all day) | \$0.15 |
| 10:00 p.m. 5:59 a.m., Monday - Friday; Sunday and holidays (all day) | \$0.15 |
| <u>One-time Charges</u> | |
| Service Ordering Charge | \$25.00 |

FINANCIAL QUALIFICATIONS

La Star's capital costs and pre-operating and first-year operating costs for its proposed system are set forth in Tables 1 and 2. These costs are the following:

| | |
|-----------------------------|--------------------|
| Capital Costs | \$2,660,900 |
| Pre-operating and first | |
| <u>year operating costs</u> | <u>\$1,790,200</u> |
| Total costs \$ | \$4,451,100 |

La Star has obtained a \$10 million loan commitment from the American Security Bank to fund this system. This commitment is documented by the letter which is Attachment 1 hereto.

Pursuant to Section 22.917(f) of the Commission's Rules, any loan or other credit arrangement providing for a chattel mortgage or secured interest in La Star's proposed system will include a provision for a minimum of ten (10) days prior written notification to La Star and to the Commission before any equipment may be repossessed under default provisions of any agreement.
